

## EUROLUCE 2007 (MILAN):

It was a great pleasure to introduce seven new Verpan Panton lamps at this years Milan fair.

The response we got at the show has been overwhelming and we have received interest from clients in 69 different countries around the world.

Present we sell our Panton range in more than 40 countries and adding new once all the time.

The interest shows us that the products have been accepted as classic designs. A goal for us from the very beginning was to bring those beautiful lamps back where they deserve to be.

We had Miss Panton at our stand for the launch of the new items on the opening day.

We are very glad and proud of Miss Pantons appreciation of the relaunch of the new items. It was a great feeling for all of us at Verpan.
